RE: 2022 Appropriation Request

DATE: May 2, 2023

Each of you may recall an improvement project to the St. Charles County Police Department Firing Range in 2022. Work on a component of that project, the ATS Target Turning System, began on September 20, 2022. Due to undesirable circumstances in the construction industry and technical and functional complications with the software, we were unable to receive on the system until April 24, 2023.

Funding for this project was originally appropriated through the 2022 fiscal year budget, however, since we were unable to receive on it until 2023, we were unable to access 2022 funds and they lapsed.

I am requesting your approval to reappropriate 2022 funding for payment on this project. I welcome any questions you may have regarding this request.
