RE: Femme Osage Ridge  
Stock & Associates Job No. 6131

To Whom it may concern

On behalf of our Client, Mr. Bob Brinkmann, we would like to request a variance for the above subdivision from Section 410.280.2. The last line of the requirement states that "All lots within the a subdivided plat must have access to interior subdivision streets." As the lots in the proposed subdivision have access to an existing private road and there are no new interior streets proposed, we feel this variance is appropriate for this subdivision.

Sincerely
