

## MEMORANDUM

**TO:** County Council  
**FROM:** Hope Woodson  
**RE:** Mosquito Contract Services Standard Form Agreement  
**DATE:** 12/19/2018

---

We propose editing the current ordinance to supplement the standard annual municipal contract with this revised version. The revised contract includes the below changes:

- a. Added section to charge municipalities for lab service fees
- b. Automatic annual contract renewal
- c. Removed the specific name of adulticide used as this can change
- d. Added language to allow for treatment based upon known threats to public health

We welcome any questions and believe this to be an improvement on the delivery and implementation of our long-standing program.

Thank you.

Hope Woodson, MHA  
Director of Public Health
