MEMORANDUM

TO: Craig Tajkowski, County Engineer
FROM: Dennis Wiss, Airport Director
RE: Acceptance of Federal Airport Improvement Program, Missouri Highways and Transportation Commission State Block Grant Agreement Amendment #3, CFDA #20.106, Project No. 16-111A-1: Construct Apron Rehabilitation

DATE: January 2, 2020

The State of Missouri has prepared Amendment #3 to the above-named State Block Grant Agreement to extend the amount of time needed to complete the project.

The County Council adopted Ordinance 17-034 in April of 2017 for the design of the rehabilitation of portions of the airport’s west apron. This design entailed a mill and overlay of the asphalt pavement on the northern half of the west ramp as well as the removal and replacement of the concrete apron on the south end of this ramp. The County subsequently adopted Ordinances 17-087, Amendment #1, and 18-082, Amendment #2 for the construction costs of the above improvements. All construction is completed on this project, the time extension is only to complete project closeout paperwork and to process payment and reimbursement requests.

This is a no-cost Amendment.

At this I would ask that an Ordinance be adopted for the County Council to accept Grant Amendment, #3 and that the Amendment be signed using the Docu-Sign process for return to MoDOT Aviation. MoDOT Aviation is asking that this Grant Amendment be accepted and returned to them no later than March 15, 2020.

As always, if you have any questions, please feel free to contact me.
