MEMORANDUM

TO: St. Charles County Council
FROM: Chief Kurt Frisz
RE: Resolution Adopting STL Regional Hazard Mitigation Plan 2020-2025
DATE: March 19, 2019

Before you is a resolution to adopt the St. Louis Regional Hazard Mitigation Plan. The purpose of this plan is to help protect public safety and to prevent injury or loss of life in the event of a natural disaster. This plan also provides recommendations for advanced preparation for first responders, local governments, elected and appointed officials, and educational institutions.

By planning for disasters in advance, emergency response personnel and local governments can increase their operational effectiveness, reduce costs, save lives, and improve efficiency of disaster response and recovery. By adopting the plan, governments reduce risks to existing and future development and prevent damage to each community’s unique economic, cultural, and environmental assets.

Respectfully,

Kurt Frisz
Chief of Police
