Additional mobilization costs will be charged for each trip if site is not ready for the installation of the equipment. Core drilling or saw cutting of existing or new concrete or asphalt is not included. The installation of all furnishings and equipment not indicated as surface mount or portable should be scheduled for installation prior to concrete or asphalt construction or blocked off for in concrete forms. Installation prices assume normal soil conditions, easy access to site with trucks. Installation does not include any allowance for moving or repairing any underground utility lines such as electrical, telephone, gas, water or sprinkler lines that may be encountered during installation operations. Any additional costs incurred as a result of hard rock conditions requiring extra equipment, or for utility removal or repair resulting in delay is for customer’s account, unless they are detailed on as built site drawings or marked on the ground prior to quotation, fabrication and installation.
