EMERGENCY OPERATIONS CENTER

Current Conditions
Last Updated 09:45 3-25-24
The St. Charles County Emergency Operations Center is not activated at this time. We are conducting routine monitoring.

St. Charles County Regional Management (SCCREM) continues to monitor COVID-19.
ACTIVATION LEVELS EXPLAINED

Level 1: Lowest EOC activation. Enhance monitoring occurs during this level. Regional EMA staff monitors from the field or EOC.

Level 2: Moderate activation. Regional EMA staff is monitoring from the EOC. Coordination with local Emergency Dispatch Staff, Highway Crews, Fire Agencies, Law Enforcement Agencies, and other Public Safety services as needed. ESF leadership is notified and advised of conditions.

Level 3: Full EOC activation. Multiple Emergency Support Functions (ESFs) are at the EOC. Providing logistical support to surrounding agencies, coordinating with municipalities, and providing technical expertise. May include coordination with Missouri State Emergency Management Agency (SEMA).

Level 4: Maximum EOC activation. Includes staff members from SEMA, FEMA, County Command Staff, State Command Staff, and the deployment of Federal Resources.
Freezing Low Temperatures Later This Week

Cold air will return on Tuesday and freezing low temperatures will be the result. Many areas will see a hard freeze Tuesday night/early Wednesday morning. Areas of frost and a freeze are on tap for Wednesday night/early Thursday morning. Be aware if you have any early blooming plants.
Hazardous Weather Outlook

- Winds will gust as high as 45 mph today. A Wind Advisory has been issued from 7AM to 7PM today.

There is a slight chance of thunderstorms over portions of the area today and tonight.

Days Two Through Seven

- There is a slight chance of thunderstorms north of I-70 early Tuesday morning. There is also a slight chance of thunderstorms Saturday night and Sunday.

Watches, Warnings and Advisories in Effect:

- There is a wind advisory for the area from 7AM to 7PM Monday.
