HIGHWAY N

Project Location:

Highway N from Motherhead Road to Mid Rivers Mall Drive

Project Description:

Highway N from Motherhead Road to Mid Rivers Mall Drive is an arterial roadway currently in poor condition. This project will rehabilitate the pavement with a 2-inch mill and overlay, install new pavement markings and new signs. The project will also replace the existing raised asphalt shoulder with concrete sidewalk to create a pedestrian path on the south side of the roadway. Additional improvements include modifying the location of the pedestrian push buttons along the south side of Highway N in front of Francis Howell Central High School to be accessible and reconstructing private and commercial building entrances along Highway N with the construction of the new sidewalk to provide ADA compliant pedestrian crossings. To accommodate bicycle users the City of Cottleville recently constructed a 10-foot multi-use path on the north side of Highway N.
