RE: St. Charles County Municipal Separate Storm Sewer System Stormwater Management Plan Evaluation, MO-R040058, St. Charles County

Dear Rich Gnecco:

The Missouri Department of Natural Resources' Municipal Separate Storm Sewer System (MS4) Program has completed the review of the St. Charles County MS4 Stormwater Management Plan (SWMP) received March 31, 2021. The SWMP is hereby approved for the 2021 through 2026 permit cycle.

Please note that this approval is for the SWMP document only. This letter does not represent a Maximum Extent Practicable (MEP) compliance determination for the MS4's Stormwater Program as a whole. The Department primarily evaluates MEP at these three stages: during the SWMP document review, during the audits/investigations of the MS4's implemented Stormwater Program, and during other Stormwater Program evaluations of MEP.

Enclosed with this letter please find the Phase II MS4 SWMP Evaluation Form. Please review the enclosed SWMP Evaluation Form for additional detail to address any comments or action(s) required.

If you have any questions regarding this correspondence, please contact me by phone at 573-751-8309; by email at erin.heidolph@dnr.mo.gov; or by mail at Department of Natural Resources, Water Protection Program, P.O. Box 176, Jefferson City, MO 65102-0176. Thank you.

Sincerely,

WATER PROTECTION PROGRAM

Erin Meyer Heidolph, MS4 Program Coordinator
