## SALT RIVER ROAD - ARROWHEAD INDUSTRIAL BOULEVARD INTERSECTION IMPROVEMENTS

### Project Location:

Intersection of Salt River Road and Arrowhead Industrial Boulevard

### Project Description:

This project improved the intersection operation and replaced the existing temporary span wire traffic signal system at the intersection of Salt River Road and Arrowhead Industrial Boulevard. The project evaluated several intersection design configurations and determined that a new “Green-T” style intersection would provide the most efficient intersection design. This type of intersection configuration provides a continuous green indication for westbound traffic on Salt River Road to continue onto nearby Highway 79 without having to stop for the signal. Additionally, a permanent traffic signal was installed, and Arrowhead Industrial Boulevard was widened to provide for separate left and right turn lanes onto Salt River Road. Together these improvements to the intersection will improve safety, reduce congestion due to truck and shift change traffic, and limit disruption of traffic along Salt River Road.

**Project Status:** Construction completed

### Original Project Funding:

TOTAL	County	Sponsor	Federal	Other
\$1,444,638	\$658,773	\$164,693	\$621,172	\$0

**Final Project Total:** \$1,255,779

**Final County Contribution:** \$507,686

**Completion Year:** 2021

**Sponsor:** City of Saint Peters
