PAUL RENAUD BOULEVARD EXTENSION

Project Location:

New roadway extension of Paul Renaud Boulevard between Sommers Road and Country Trail Drive

Project Description:

This project involved the extension of Paul Renaud Boulevard, a residential collector road, that previously dead ended just east of Country Trail Drive, to complete the connection to Sommers Road. The extension of Paul Renaud Boulevard corresponded with the City’s thoroughfare plan and has been planned for many years. With the completion of this connection, Paul Renaud Boulevard is now completely connected between Sommers Road to the east and Diehr Road to the west. Before this connection was made, traffic had significantly increased on Countryshire Drive, a subdivision street, posted at 25 mph, with driveways located one after the other. Countryshire Drive was not built to handle the types of volumes and speeds it was experiencing which prompted support from residents to extend Paul Renaud Boulevard.

Project Status: Construction Completed

Original Project Funding:

TOTAL	County	Sponsor	Federal	Other
\$1,617,000	\$1,293,600	\$323,400	\$0	\$0

Final County Contribution: \$1,132,700

Completion Year: 2020

Sponsor: City of O’Fallon
