MID RIVERS MALL DRIVE AND OHMES ROAD INTERSECTION IMPROVEMENTS

Project Location:

Intersection of Mid Rivers Mall Drive and Ohmes Road

Project Description:

This project provided for intersection improvements at Mid Rivers Mall Drive and Ohmes Road. Mid Rivers Mall Drive is a primary north/south connection, between I-70 and Page Avenue, that carries a heavy amount of traffic, between 30,000 to 40,000 vehicles per day. Therefore to reduce congestion and improve safety at this intersection, the project provided for geometric improvements and widening to provide for dual left-turn lanes from northbound Mid Rivers Mall Drive to westbound Ohmes Road. The existing 8-foot-wide multi-use path along the west side of the road was left in place. Since the construction of this project, a new multi-use path, with more separation between the path and the roadway, has been constructed along the west side of the Mid Rivers Mall Drive. This path is part of Great Rivers Greenway’s Dardenne Greenway multi-use trail system.

Project Status: Construction completed

Original Project Funding (Design, R/W & Construction):

TOTAL	County	Sponsor	Federal	Other
\$1,108,300	\$886,600	\$221,700	\$0	\$0

FINAL COUNTY Contribution: \$784,880

Completion Year: 2017

Sponsor: City of Saint Peters
