## MID RIVERS MALL DRIVE WIDENING

### Project Location:

Mid Rivers Mall Drive from Ecology Drive to I-70 North Outer Road

### Project Description:

With the conversion of the I-70 interchange at Mid Rivers Mall to a Diverging Diamond Interchange (DDI) in 2014, traffic patterns and lane needs along Mid Rivers Mall Drive have changed. Therefore this project provided for roadway widening along Mid Rivers Mall Drive to the north of the interchange between Ecology Drive and the I-70 North Outer Road. The roadway widening provided for an additional through lane in each direction along Mid Rivers Mall Drive. Providing an additional northbound and southbound lane will reduce congestion and improve traffic flow through the interchange. The lane additions will also provide more storage between the North Outer Road and the Norfolk-Southern Railroad crossing, reducing potential traffic backups through the DDI since train crossings occur an average of 6 to 8 times per day.

**Project Status:** Construction completed

### Original Project Funding (Design, R/W & Construction):

TOTAL	County	Sponsor	Federal	Other
\$1,280,399	\$1,001,912	\$278,487	\$0	\$0

**FINAL COUNTY Contribution:** \$1,001,912

**Completion Year:** 2018
