INDEPENDENCE ROAD PHASE 4

Project Location:

Independence Road from 350-feet west of Nancy Lane to Galahad Drive

Project Description:

This project was the fourth and final phase of improvements to Independence Road. The existing roadway was narrow with no shoulders and open drainage ditches. This project, along with the other project phases, widened Independence Road to provide for two 12-foot lanes, 6-foot shoulders, curb and gutter, and enclosed drainage. The project also included the addition of left-turn lanes at three intersection locations. To improve safety along the roadway, the vertical alignment of the roadway was improved to provide for better sight distance. To provide for an on-street bicycle facility, the shoulders were striped for bike lanes. Additionally, a 10-foot-wide multi-use trail was constructed along the north side of the road to accommodate pedestrians as well as providing for a low-stress off-street facility for bicyclists.

Project Status: Construction completed

Original Project Funding (Design, R/W & Construction):

TOTAL	County	Sponsor	Federal	Other
\$2,405,000	\$1,202,500	\$240,500	\$962,000	\$0

FINAL COUNTY Contribution: \$1,202,500

Completion Year: 2020

Sponsor: City of Weldon Spring
