FLASHING YELLOW ARROW CONVERSION

Project Location:

Various locations within the City Limits of St. Peters

Project Description:

This project provided for the installation of new signal hardware and wiring to fully implement flashing yellow left-turn arrow indications for approximately 60 traffic signal heads throughout the City of St. Peters. The project replaced the existing permissive circular green signal indications with flashing yellow arrow signal indications at all applicable approaches at various intersections. The flashing yellow arrow indication represents the same allowed traffic movement as a solid green indication, in that vehicles are permitted to make a yielding left-turn. New signage was also installed adjacent to each new signal head to clearly communicate what the new signal indication represents.

Project Status: Construction Completed

Original Project Funding (Design & Construction Only):

TOTAL	County	Sponsor	Federal	Other
\$300,000	\$48,000	\$12,000	\$240,000	\$0
