SUTTERS MILL ROAD BRIDGE

Project Location:

Sutters Mill Road over Spencer Creek between Plum Tree Drive and Spencer Crossing

Project Description:

This project provided for the removal and replacement of an existing single span, concrete girder bridge on Sutters Mill Road over Spencer Creek. This city owned and maintained bridge had a bridge sufficiency rating of less than 50 which allowed the city to obtain federal funding for the replacement of the bridge. To better accommodate bicycles and pedestrians, a protected 6-foot-wide sidewalk was provided along the south side of the bridge and 10-foot-wide multi-use path on the north side. The project also included new sidewalk and multi-use path connections between Spencer Crossing and Plum Tree Drive. These new connections provide access to the Spencer Creek Trail that runs north-south and crosses Sutter Mill Road at this location.

Project Status: Construction Completed

Original Project Funding:

TOTAL	County	Sponsor	Federal	Other
\$1,465,000	\$234,400	\$58,600	\$1,172,000	\$0

FINAL COUNTY Contribution: \$188,565

Completion Year: 2016
