## **FORISTELL ROAD AND ROUTE Z INTERSECTION IMPROVEMENTS**

### **Project Location:**

Intersection of Foristell Road with Route Z

### **Project Description:**

The existing intersection of Foristell Road with Route Z was dangerously skewed and had poor sight distance. To correct these issues, this project realigned a 300-foot section of Foristell Road on the west side of Route Z to create a 90-degree intersection with Sycamore Creek Drive on the east side. The project also included widening along the west side of Route Z from Fiddlecreek Ridge Road to approximately 700-feet south of Foristell Road. The widening allowed for left-turn lanes to be added in both the northbound and southbound directions on Route Z at this new realigned intersection with Foristell Road/Sycamore Creek Drive.

**Project Status:** Construction completed

**FINAL PROJECT TOTAL (Funded 100% by County):** \$181,884

**Completion Year:** 2019
