CIVIC CENTER DRIVE

Project Location:

Civic Center Drive from Lake Saint Louis Boulevard to West Outer Road

Project Description:

The existing roadway was deteriorated and in need of replacement, therefore this project provided for the full reconstruction of Civic Center Drive. The new 2-lane road was widened to provide for 6-foot-wide shoulders that also serve as an on-street bicycle facility. The project included new asphalt pavement, curb and gutter, and modifications to existing storm water inlets. New sidewalk was provided on both sides of the road between Lake Saint Louis Boulevard and Veterans Memorial Park. The new sidewalk was continued along the north side of the road only up to Lake Knoll Drive. A new crosswalk with a rectangular rapid flashing beacon was installed at the entrance to the retail complex located on the south side of Civic Center Drive to connect to Veterans Memorial Park.
