LAKE SAINT LOUIS BOULEVARD PHASE 2

Project Location:

Lake Saint Louis Boulevard from Blue Cove Terrace to Pleasant Meadows Drive

Project Description:

This project was the second phase of the reconstruction of Lake Saint Louis Boulevard to improve the pavement condition and increase safety along this roadway. The project rehabilitated the existing 2-lane roadway by milling the asphalt pavement 6-inches, repairing areas with poor subgrade, and installing a geosynthetic pavement interlayer system with the new asphalt pavement overlay. Together these pavement improvements help to reduce reflective cracking and extend the pavement life. To increase visibility at night and during wet conditions, the pavement markings were improved through the use of epoxy paint to increase reflectivity.

Project Status: Construction Completed

Original Project Funding (Construction Only):

| TOTAL | County | Sponsor | Federal | Other |
|-----------|-----------|----------|-----------|-------|
| \$996,499 | \$150,000 | \$28,813 | \$817,686 | \$0 |

FINAL COUNTY Contribution: \$140,209

Completion Year: 2020

Sponsor: City of Lake Saint Louis
