MUEGGE ROAD TRAFFIC FLOW IMPROVEMENTS

Project Location:

Muegge Road from Mexico Road to The Home Depot entrance

Project Description:

This project provided for traffic flow improvements along Muegge Road in the northbound direction between the unsignalized entrance to the Home Depot and the signalized intersection of Mexico Road. Muegge Road is an existing 5-lane roadway with 2-lanes in each direction and a center two-way left-turn lane. This project widened Muegge Road along the east side to add an additional northbound lane to increase capacity through this intersection. The new intersection configuration of Muegge Road and Mexico Road provides for one left-turn only lane, a shared left-turn/thorough lane, and two additional thorough lanes in the northbound direction. Due to the widening, the existing sidewalk needed to be removed and replaced. The existing sidewalk was narrow, therefore it was replaced with an 8-foot multi-use path along the east side of the road through the project limits to better accommodate pedestrians and bicyclists.

Project Status: Construction completed

Original Project Funding (Design, R/W & Construction):

TOTAL	County	Sponsor	Federal	Other
\$545,000	\$54,500	\$54,500	\$436,000	\$0

FINAL COUNTY Contribution: \$54,500

Completion Year: 2015
