JUNGERMANN ROAD BRIDGE REPLACEMENTS

Project Location:

Jungermann Road from Barkwood Trails Drive to Briarwick Trail

Project Description:

This project replaced two existing deficient culverts on Jungermann Road. The project also included reconstruction of Jungermann Road, from Barkwood Trails Drive to Margaret Brown Court, to allow for adjustments to the roadway profile, to mitigate flooding issues along this segment of Jungermann Road. In addition, the project included a new 11-foot-wide multi-use path along the east side of Jungermann Road between Country Creek Drive and the existing Horstmeier Trail. To improve safety and access to Country Creek Trail, which crosses Jungermann Road at Spencer Creek, two new pedestrian crossings were constructed, one at the traffic signal at Country Creek Drive and the other under the new bridge over Spencer Creek.
