WENTZVILLE PARKWAY AND PEARCE BOULEVARD INTERSECTION IMPROVEMENTS

Project Location:

Intersection of Wentzville Parkway and Pearce Boulevard

Project Description:

This project provided for lane additions at the intersection of Wentzville Parkway and West Pearce Boulevard. Southbound Wentzville Parkway was widened to provide for an additional left-turn lane to eastbound West Pearce Boulevard. Northbound Wentzville Parkway was also widened for an additional left-turn lane and for a new separate right-turn lane. West Pearce Boulevard was widened between Bank Street and Bear Creek Drive to provide for the addition of a through lane and a left-turn lane in both directions at the intersection with Wentzville Parkway. The eastbound West Pearce Boulevard through lane ends as a right-turn only lane at Bank Street and similarly the westbound through lane turns into a right-turn only lane at Bear Creek Drive. A westbound right-turn lane from West Pearce Boulevard to northbound Wentzville Parkway was also provided with the project improvements.

Project Status: Construction Completed

Original Project Funding (R/W & Construction Only):

TOTAL	County	Sponsor	Federal	Other
\$2,485,000	\$986,858	\$677,229	\$820,913	\$0
